**Supplementary notes**  
The president's address to the Senate on the peace movement was a landmark event in the history of the United States. It was the first time since the Civil War that a president had appeared in person before the Senate to discuss a matter of national importance. The address was well received and the president's plan for a peace movement was accepted by the Senate.

The Supreme Court has ruled that blue sky laws are constitutional. This decision is a landmark in the history of the United States, as it is the first time that the Supreme Court has ruled in favor of a state's right to regulate its own economy. The decision is a victory for the states and a blow to the federal government's attempt to regulate the economy.

## GERMAN POWERS AND BLOCKADE OF BRITISH ISLES ACCEPT PLAN

**SUPPLEMENTAL NOTE**  
MINISTER BALFOUR EVI-  
DENTLY CAUSED PRESIDENT TO  
MATTER BEFORE SENATE.

WASHINGTON, Jan. 22.—The Unit-  
ed States must have a voice in deter-  
mining whether the peace terms and  
the war are such as would guaran-  
tee lasting peace, declared President  
Woodrow Wilson this afternoon.  
The president asserted that the United  
States should not play its part in any  
settlement formed to preserve the  
peace of the world, he said.  
He asserted that there could be no  
lasting alliances in such a league.  
The president asserted that a force  
be created "as a guarantee of  
security of the settlement, so  
greater than the force of any  
combination of nations"  
be a probable combination could  
be made. "If the coming peace is  
to be a permanent force of mankind," said  
the president.

The president continued: "People  
must not be the peace of vic-  
tory, as only peace be-  
ing can last. There must be  
equality of power in Europe and  
the balance of power; organized  
peace and not organized riv-  
als must prevail."

The president continued: "People  
must have the right to determine un-  
der government they shall live;  
they must be free to all nations,  
and powers should be assured of a  
right to the seas. These ques-  
tions are closely related to the ques-  
tion of limitation of armaments," he  
said.

President Wilson arranged to ad-  
dress the Senate at 1:00 o'clock this  
afternoon on the question of the part  
of the United States is to take in the  
new international league for the  
maintenance of peace. Secretary Tu-  
llaghan announced that the president  
will discuss the outline of the atti-  
tude of the United States toward peace  
arrangements. He stated pos-

## BLUE SKY LAWS ARE HELD CONSTITUT'NAL BY SUPREME COURT

LONDON, Jan. 22.—It is believed in  
England and France that Germany  
intends to establish a deep-sea block-

and war supplies from England and  
France.

Tourists read it every morning—

WASHINGTON, Jan. 22.—The Ohio,  
Michigan and South Dakota "blue sky  
laws," designed to curb the sale of  
fraudulent securities is held consti-  
tutional by the United States supreme court  
today. It is held that the authority  
exercised by the states does not ex-  
ceed "police powers" and the law  
is not a burden upon interstate com-  
merce in the sale of stocks and  
bonds.

## EVEN VETERANS FAIL TO MAKE BIG CATCHES

B. H. Smith, of Caro, Mich., winter  
resident of Cedar street, who knows  
the haunts of the fish of these wa-  
ters better than the average native,  
made a fishing trip Saturday to the  
Tomoka river, in his launch, the  
"Michigan Girl", accompanied by his  
son, D. H. Smith, who recently arrived  
from Caro, and F. S. Riley, of De-  
troit, Mich., who is located for the  
season in the Michigan apartments,  
owned by Mr. Smith, on Cedar street.  
The party made a fair catch, but did  
not secure nearly so many fish as is  
usually the case when Mr. Smith goes  
after them. The general report is,  
however, to the effect that the fish  
have not been biting well.

## ORDERS ISSUED FOR SENDING GUARDSMEN HOME FROM BORDER

WASHINGTON, Jan. 22.—Orders  
were today issued to send 25,000  
guardsmen home from the Mexican

mit.

tillery, field hospital No. 1.

Company A engineers, field hospital

## RAIDER BELIEVED TO BE THE VINETA

INFORMATION RECEIVED BY BUE-  
NOS AIRES NEWSPAPER—RE-  
PORT COMES BY CABLE FROM  
PERNAMBUCO.

BUENOS AIRES, Jan. 22.—A Rio  
Javier dispatch to the La Prensa says  
a cablegram from Pernambuco states  
that the German commerce raider has  
been sunk 130 miles off Para, by the  
British cruiser Glasgow. The report  
says the raider was the Vineta. Other  
details are lacking.

The Vineta is a first-class German  
battleship. The commerce raider has  
been described as having 12 guns and  
four torpedo tubes, and this leads to  
the belief that one of the raider's  
cruisers must have slipped through  
the British blockade.

Nineteen merchant steamships and  
two French schooners have been sunk  
by the unknown terror of the South  
Atlantic seas within the last six  
weeks. Among them are the Dramatist,  
the Radnorshire, the Minch,  
the Notherbyall, the Mount Temple,  
the King George and the Georgic, all  
British vessels, while the French lost  
the Nantes and the Asaries.

Mrs. Helen Mogan McCay and little  
daughter, Rose Mary, and Mrs. Jack  
Collins and small son, James, of De-  
troit, Mich., arrived Saturday evening  
to spend the season and are tem-  
porarily with Mr. and Mrs. E. T. Con-  
rad at their home on Orange avenue.  
Mrs. McCay and Mrs. Collins are cou-  
sins of Mesdames E. T. and F. N. Con-  
rad. Mrs. McCay visited here for  
awhile last winter and made friends  
who will be pleased to see her again  
this season.

## DANIELS DEFENDS CONTRACT ACTION

WASHINGTON, Jan. 22.—Secretary  
Daniels last night issued a statement  
defending the department's action in  
awarding recently the contract to  
Hadfields, Limited, a British munitions  
concern, for a large number of navy  
armor-piercing projectiles at a price  
about \$200 per shell below the Amer-  
ican bids. In his statement Sec-  
retary Daniels scores the Bethlehem  
Steel company and says American  
steel concerns are turning out inferior  
products.

### CIVIC PARADE AT CASINO BURGEOYNE LARGELY ATTENDED

A monster Civic Day exhibition and parade took place at the Casino Burgoyne on Saturday afternoon under the direction of the members of the Civics Department of the Palmetto club with Mrs. Celeste Hinks as its chairman. It was very ably conducted and requests for children to participate in the different classes brought out a larger number of children than was ever anticipated. Everybody, both mothers and children, tourists to Daytona, in fact, everyone took a hand to make it the largest affair of its kind ever held here.

Three prizes were given each class of boys and girls, arranged according to age. The masters of ceremonies were Captain Young and R. C. Water-son. The judges for the girls were Mrs. Willis A. Wheeler, Mrs. Isabel Cornwall, Mrs. Wilson Ramsey, Mrs. John Humberston. The judges for the boys were Joe Osborn, Jacob Espedahl, H. T. McClellan. Never did judges have a harder mission to perform, and never did they try to be more just. Every child was at his best, and no two were quite alike. The prizes were money, \$2 for the first, \$1 for the second, and a blue ribbon for the third. In class No. 1 for girls from 4 to 6, Evelyn O'Neill, a sweet golden-haired child of five years, dressed as a fairy in white with golden stars and wand, was first prize winner; second, Helen Elizabeth Dunn; third, Frances Crippen. Class No. 2, boys from 4 to 6, all on some kind of bicycle, all decorated, first prize was won by trio as "old woman in shoe," Walter Braddock, Albert Atkins; second, Daniel Herbert Wyman; third, Junior Hunt. Class No. 3, girls 6 to 8, dolls and carriages, first prize, Annie Holland, canopied doll carriage; second, Muriel O'Neill; third, Helen Virginia Hunt. Class No. 4, boys 6 to 8, Ronald Still-

man, first; Mortimer Courtney, second; Loring Troy, third.

Class No. 5, girls 8 to 10, first prize, Emma Hamilton; second, Mary Garrison; third, Miriam Rightmire.

Class No. 6, boys 8 to 15, first, Herman Intemann; second, Winch Simpson; third, Byard Rogers.

Class No. 7, girls 10 to 15, with a display of domestic science and domestic art, the products of which were on display, and were very fine specimens of this handicraft. First prize was awarded Theo McCullough; second, Irma Hoffer; third, Mary Weeks.

During the exhibition the casino orchestra played appropriate music for the various divisions.

Following the awarding of the prizes the children formed in line and marched up the esplanade as far as the Burgoyne home, which brought the afternoon to a fitting close.

The ladies who aided Mrs. Hinks in bringing about the grand success of the day were Mesdames Atwood, Avery, Balcom Chamberlin, E. T. Conrad, Davis, Esch, Freeman, Galler, Gardiner, Hotchkiss, Hunt, Huston, Kipp, R. S. Maley, Milligan, Henry Mitchell, Newell, Niver, Perrin, Robbins, Rhodes, Rogers, Sears, Seaman, Smith, Stevens, J. E. Stillman, H. Y. Stillman, Uebelhoefer, Wilder, Walcott, Wheeler, White, Miss Lee Bowers, Miss Clark, Miss Thorpe, Misses Daisy Schmadeke, Mable Morgan and Hazel Nelson, Mrs. Wm. Roxby, Miss Isabel Towne, Mrs. John Lyon, Mrs. Ella P. O'Neill, Miss Mary Harry, Mrs. W. P. Gille.

When they determined to spend their first winter in the south, Mrs. Clara Brown and daughter, Miss Marjorie Brown, of Youngstown, Ohio, chose Florida and feel that they were fortunate in selecting Daytona and vicinity. They first stopped in a Seabreeze cottage, but having read of Wilbur-by-the-Sea, motored down last Tuesday for dinner at the Toronita hotel. The homelike atmosphere and the excellent service won their favor and now Mrs. Brown and Miss Marjorie are the life of the Toronita. There is not a dull moment in their daily life and all who have met them are charmed by their delightful personality.

## PRIVATE WIRE NEWS

Published by CLEMENT D. CATES & CO. Members of New York Cotton Exchange and Chicago Board of Trade

**American Locomotive for six months ending Dec. 31, shows surplus after charges of \$3,631,000, an increase of \$863,000.**

**E. F. Hutton & Co.: "American Locomotive shows over 20 per cent earned. Apparently they are not earning. If the next statement of the Hide & Leather company shows as we expected as great a rate on the stock as the latter company. Saturday's bank statement brings a surplus reserve of over \$200,000,000. Railroads will become active soon. The decision in the Adamson law and the expected legislation in their favor should make this group prominent. Rumored that Pennsylvania will acquire a controlling interest in the Southern Railway and Chesapeake & Ohio continue to show net increases. N.Y. dividend due this week and extra not unlikely."**

**Liverpool cotton within a few points of meeting our decline. In view of curtailed trading, cables hereafter will be less significant and confined to undeciding struggles. Our own market is again good through a period of liquidation and will therefore run its course regardless of other factors.**

**Wheat—Press cables carry rumor that South Atlantic raider has been sunk. If true, a better feeling will prevail in Ocean steamship circles. North American clearances for week 7,250,000 or on larger ratio than the arithmetical North American can stand. Market in position to respond to revival of export trade.**

**Corn—Sales at this level are of an excellent character as the cash article is high.**

**Oats—The market fails to respond to better business as it is believed the business being done is simply interchanges of the cash for the futures.**

**Prns—Buying of the January products thought to reflect the cash demand.**

**Hear that Marine common and preferred will have good rises.**

**World's shipment of wheat 10,447,000; corn 2,794,000. Last year 12,320,000 and 2,463,000.**

**If Marine common is worth 34 preferred should be worth 134.**

**Logan & Bryan: "It is well to call attention that in recent German attacks on shipping, American rights have not been violated. Unless more disturbing news is received we feel that the tendency of the market is still upwards."**

**Block Mahoney: "Think a trading position will pay best for the present."**

**Ware & LeLand: "Favor purchases of wheat on good declines. Favor purchases on any further declines."**

**Lamson: "Unless some weakening in regard to the war develops, the wheat market should have a rally. Seems advisable to buy corn on dips."**

**Bartlett F. & Co.: "Look for a renewal of inquiry this week, which will have a stimulating effect on wheat values."**

**Liverpool due 24 1/2 to 27 1/2 lower, 20 to 24 lower. At 12:30 p. m. 14 to 25 lower, spots fair demand, 25 lower, middle 1971, sales 8,000; Ann. 7,000.**

**Rains fell Southern states yesterday, heavy lower Mississippi valley. Temperature unseasonably high. Indications are rain South Atlantic states today followed by fair tomorrow.**

**A Kansas Alibi.**  
An Atchison reporter was horrified when he thought he smelled whisky upon the breath of a prominent Atchison banker who has the reputation of being a teetotaler. Investigation revealed instead of whisky the banker had been eating onions and was chewing champagne-flavored tobacco.—Atchison Globe.

**Weeds Prove Theory.**  
Someone once said that "it's not so much a question of the survival of the fittest as of fitting as many as possible to survive," and true words were never spoken. Everybody who has a garden and carefully tends it knows that the only things which really seem fit to survive are the weeds.—Baltimore Sun.

**It Must Be So!**  
Feminism, like socialism, is difficult to confine within the boundaries of a formula. Mr. W. L. George, in "Woman and Tomorrow," has done what is possible in this direction. Feminism, he says, is, broadly, the furthering of the interests of women, philosophically the leveling of the sexes, and specifically the social and political emancipation of woman.

**Origin of Coal.**  
The very useful article known as coal is fundamentally vegetable—the product of chemical and other action upon the base vegetable growths of the carboniferous age. The same thing may be said of the diamond, which is nothing more than chemically treated carbon or vegetable. Any half decent book on geology will tell you all about what coal is.

## THRIFT DAY, FEB. 3, TO BE OBSERVED HERE

THRIFT DAY IS A TIME DESIGNED FOR THE WHOLE COMMUNITY TO TAKE A STEP FORWARD—WILL BE OBSERVED HERE.

Thrift day, Saturday, Feb. 3rd, will be appropriately observed in Daytona. Each of our national holidays is observed in such style as is particularly fitting to the day—Thrift day included.

The beneficial effect has been so direct and certain that the improvement in personal, home and civic pride is noticeable in many ways.

Many results have been accomplished although Thrift day is scarcely a year old. This one coming will be the second annual observance and bids fair to exceed in enthusiasm the first.

Thrift day should be a real, enthusiastic celebration. And those who celebrate can go the limit of radical thrift without even so much as a headache the next day. All the enthusiasm of the "Spirit of '76" can be applied to the "Thrift of '17," and the "harder" one celebrates, the better will he feel next morning—and the rest of his whole life.

## GRADING BEGUN FOR MAGNOLIA ENTRANCE

H. Y. Williams, section foreman, started his men at work this morning on the F. E. C. Railway property south of the passenger depot in preparation for the construction of the driveway through the grounds from the depot to Magnolia avenue. The ground is low in this place and 1,400 yards of sand will be used in making a fill for the roadway and elsewhere on the property and 137 cubic yards of Miami rock will supply the hard surface of the driveway. This opening up of the Magnolia avenue entrance to the depot is a most important improvement and will be greatly appreciated by the public.

Miss Mary I. Jolley returned the latter part of last week from Ocala where she had been visiting relatives for several days.

Rev. H. W. Hodge conducted services at his new charge in DeLand Sunday, going over Sunday morning and returning this morning by the regular auto bus line. Friends will be pleased to learn that Mrs. Hodge, who has been quite ill, is somewhat improved.

Mrs. C. J. Theus arrived last Friday from Colquitt, Ga., and joined Mr. Theus and they are occupying apartments at Mrs. G. A. Winkler's, 32 First avenue. Mrs. Theus was Miss Eva Rodgers of Colquitt.

**Ironing Velvet.**  
Velvet must be ironed over the iron so as not to crush the pile. The best way is to get someone to hold a hot iron upwards while you draw the velvet backward and forward along the hot surface. Keep the velvet well stretched, and go over every place carefully till the pile stands up well.

**The Pessimists.**  
If the pessimists of the past had been right, men would still be living in caves and trying to get their meals with clubs and dirt arrows. And evidently they did without publicly confessing their mistakes for their pessimistic children continue to prophesy dimly that everything that is surely going to be cannot possibly come to pass. They seem to be born with the habit and cannot get over it.—Detroit Free Press.

**Square Deal for the Shops.**  
"If women had only the courage to stop shopping when they are tired," said a young woman the other day. "They buy things then that they do not and never will like and it is a bother to the women and a needless expense to the shops. The goods are inevitably returned and credited. When shops are so decent about accepting goods and crediting them it is only fair to such establishments to give them a square deal."

**Platinum.**  
Platinum, with the exception of iridium, is the heaviest of all the metals. The name originated with the Spaniards on account of its silvery color, plata signifying silver. It was unknown in Europe until about 1741, when its existence was announced to the world by a Spanish scientist after a trip to South America.

**Weather Reform.**  
In this best of worlds all things are, of course, arranged for the very best, but as a hard-worked gardener, wearied with much watering of flowers, remarked one evening he could not understand why all the rain that had to fall could not be made to come at night. "It would save us gardeners a world of trouble," he added plaintively, "and be much useful to the flowers and things."

**New Use for Compressed Air.**  
Blowing cotton from one department to another through suitable tubes is the latest employment of compressed air in manufacturing plants. In one instance a California felt manufacturer makes use of compressed air for conveying damp wool from the scouring plant squeezers to another building across the street, in which are located the sun-exposed drying rooms. The method is said to be clean and rapid.

**DAYTONA NOW IN DIRECT CONNECTION WITH LARGE CITIES**

The American Telegraph & Telephone company strung the wires to the new office in the Donnelly building Saturday night and the business was transferred from the local telephone exchange to the long distance office Sunday.

The offices here were installed Saturday and this morning the wires were busy with long distance calls to Jacksonville and Atlanta. Mr. Austin who has charge of the office here is rushing the work of laying wires and installing keyboards to completion and already it is possible to talk directly to all important points above Daytona with as little delay as a local connection is made.

With the entrance into Daytona of the American Telegraph & Telephone company comes direct long distance to all parts of the United States, whereas prior to this time it has been necessary to relay all calls over the Western Union. When completed the line will extend to Key West, although this time connection are established only to Jacksonville, Daytona and West Palm Beach.

Business men here are enthusiastic over the entrance of the company into Daytona and realize the importance of the service, which has put Daytona into direct connection with all points of the United States.

**HOTEL SIGNS PLACED FOR SEASON AT DEPOT**  
The hotel signs were hung along the F. E. C. railway passenger depot platform Saturday and make quite an array, reaching from the depot building to the entrance to the grounds on Volusia avenue. Thirty-seven signs were counted on the line Saturday and assignments have been made for stands for 48 hotels of this city, Daytona Beach and Seabreeze and this does not include all the hotels in the three places. The line-up of the posters or other representatives of these hotels must convey the impression to passengers on the trains that Daytona is something of a city and they are right, but an attractive electric sign at Volusia avenue would further impress this fact.

**DESPLANDS GO TO SEBRING TO TAKE CHARGE OF HOTEL**  
Mr. and Mrs. Leon Despland, who came to Daytona Saturday, returned to Palatka Sunday. Mr. Despland has sold his interest in the Putnam hotel in Palatka and they plan to leave Tuesday or Wednesday for Sebring to take charge of the Arrowhead Inn for the owner, Geo. E. Sebring, of Sebring, Ohio, who is well known here. Friends in this city were hoping that Mr. Despland and family would return to Daytona when Mr. Despland disposed of his interests in Palatka, but this is not to be. Leon Despland Jr., who had been with his parents in Palatka, does not accompany them to Sebring, but instead leaves today for Washington, D. C. to enter the United States army service, probably in the cavalry branch.

## THE WEATHER

FOR FLORIDA: Probably local rains tonight and Tuesday; colder Tuesday and in northern portion tonight; cold wave in northern portion Tuesday.

A storm of considerable energy moved across the country from the lower Rocky Mountain region to the St. Lawrence river during the last 48 hours. It was attended by widespread precipitation from the pine states to New England, rain changing to snow over northern districts. Gales prevailed on the middle and north Atlantic coast and the east lake region.

Following the above storm is an area of moderately high pressure attended by low temperatures to the Texas peninsula. The weather is warmer than the seasonal average over most of the Gulf states and Atlantic coast districts, except New England. Conditions favorably local rains tonight and Tuesday; colder Tuesday.

## MRS. W. J. BRYAN TO SPEAK AT PALMETTO CLUB NEXT TUESDAY

WIFE OF FAMOUS STATESMAN TO GIVE ADDRESS ON NATIONAL QUESTION OF WOMAN SUFFRAGE.

Mrs. William Jennings Bryan will speak at the Palmetto clubhouse, Orange avenue, next Thursday afternoon, January 25 at 2:30 on the subject, "Woman Suffrage." All interested women are invited by the club to attend.

After her marriage in 1884, Mrs. Bryan studied law in order to enter more fully into her husband's work and took special work at the University of Nebraska and other western schools. She was admitted to the bar in the district and supreme courts of her home state but never practiced. Mrs. Bryan is a member of the Y. W. C. A. and the W. C. T. U. and also has taken an active interest for many years. She has made a study of Women's Suffrage and her address should be of interest to the women of this vicinity.

Mrs. Bryan is spending the winter in Miami as usual at the beautiful Bryan winter home.

Mostly of Average Strength.

Since the generality of persons act from impulse much more than from principle men are neither so good nor so bad as we are apt to think them.—Hare.

## Better Than Nothing.

Give me a positive character, with a positive faith, positive opinions and positive actions, though frequently in error, rather than a negative character, with a doubting faith, wavering opinions, undecided actions and faintness of heart. Something is better than nothing.—C. Simmons.

## Read the War News.

A teacher in a large school near Stockton happened to be taking the story of Adam for the Scripture lesson. During the lesson she asked: "Who was it that came creeping and crawling into the garden?" She was rather dumb, but not surprised, to hear the answer from one little fellow, "Plunge, miss, it was a snipe."

## Adhesive Tape.

A correspondent suggests that a strip of adhesive tape, fixed to the lower side of a straightedge used for cutting glass, will prevent its slipping.

## Arethusa.

The name Arethusa is from the Greek. It is the name of various springs in ancient Greece, especially of one in the island of Orygia in the harbor of Syracuse. With it was connected the legend that Arethusa, a nymph of Elis, while bathing in the Alpheus, was pursued by her lover, the river-god, and fled from him to Artagea, whither he followed undersea and overtook her.

The very useful article known as coal is fundamentally vegetable—the product of chemical and other action upon the base vegetable growths of the carboniferous age. ## RIDGEWOOD PARK NOW IN MARKET

S. A. Pierce, of Jamestown, R. I., who for several years has interested himself in real estate in this city and vicinity, is now putting on the market one of the best pieces of property he has ever handled here. This is Ridgewood park, located on the west side of Ridgewood avenue, but a short distance north of the north line of the city. Mr. Pierce had the property laid out in lots, streets opened and graded and cement sidewalks put down last season and has this season completed the improvements by hard-surfacing the streets and doing other work to benefit the subdivision. The property is excellently located, being close in, and lots can be purchased at very reasonable prices either from the owner on the ground or through the Bingham & Thompson real estate agency of this city.

There are 98 lots in the tract, which is high and dry and well supplied with shade trees, while the streets have been made of good width.

## Use Care.

The top shelf of the medicine closet may be kept for emergency supplies. Especially where there are children these things are necessary—antidotes for poison, antiseptic washes and such supplies.

## DAYTONA BEACH

Harry A. Horn went over to DeLand this morning and will spend the day on legal business at the county seat.

Mrs. U. L. Clark, of St. Louis, Mo., will arrive probably Tuesday evening to spend the next few months at the large Goodall mansion in Marshall Park, now owned by H. H. Smith.

Mr. and Mrs. A. S. Randall, who have rented their attractive home on Peninsula drive, will spend the winter in Daytona at the home of their children, Mr. and Mrs. Ackland Stilling.

B. C. Perkins, one of the state officials of the Modern Woodmen of America, with headquarters at Jacksonville, and also one of the organizers of the Daytona Beach lodge, came in during the last part of the week to spend a few days at the beach.

Mr. and Mrs. Wm. Horne, of Lake Mohegan, N. Y., will arrive within the next few days to spend the winter at the Seaside Inn. Mr. and Mrs. Horne are very well known here, having a large number of friends who will welcome them again to the beach after an absence of two years.

Dr. and Mrs. Guy C. Lamson, of Philadelphia, Pa., are expected to arrive today to spend the coming week at the home of Mr. and Mrs. R. S. Holmes on Halifax avenue and the river front. Dr. Lamson is a prominent official of the Baptist church and will address the people of the Daytona Beach M. E. church next Thursday evening.

## Everybody's Sentimental.

The truth is that we are all sentimental at heart, whatever our culture. Even though we appreciate Brahms, shall we not find some pleasure in the repertoire of the hand organ, and though we admire Botticelli, shall we utterly condemn "Darby and Joan"? There are moods in which Jenn Ingelow and Mrs. Hemans are not mawkish. The thousands still weep over the death of Little Nell, though the critics sneer.—Robert M. Gay, in Atlantic.

## Brought Big Money.

Corn raised from seed found among Aztec curios in New Mexico sold at the rate of \$1,250,000 a carload in Kansas. However, only 100 grains were sold, but at the rate paid—two cents a grain—a carload lot would cost a million and one-quarter dollars. The corn is not unlike the "calico" corn grown in many parts of the country.

## Great Man Superstitious.

The learned Doctor Johnson had a special dislike of stepping over a threshold with the left foot foremost, and he was often seen to make a great circuit in order to avoid a certain valley in Leicester Fields, which he believed to be fatal to him.

## Her Vacation.

Little Elizabeth was enjoying an outing with her grandmother. She was amiable always, quite willing to do as her grandmother wished, except in one respect: she rebelled at the daily nap. "Why should I sleep?" she remonstrated. "This is my vacation."

## When Inclosing Stamps.

Postage stamps will "ride safe" as far as the mails will carry them if slipped into two slits in the letter paper, one-fourth inch apart and just a trifle longer than the stamps are wide.

## A STEADY GROWTH

The steady growth of this bank is an indication of its constantly increasing service. To afford every customer the promptest attention, and the most courteous and efficient service is the aim of our management. That the public appreciates painstaking, careful banking service is shown by the large increase in our business. Our deposits have increased 76 per cent in one year.

## DAYTONA BEACH METHODIST CHURCH FROM ITALY SUNDAY NIGHT

NATHANIEL WALLING CLARK, OF ROME, ITALY, GIVES INTERESTING LECTURE ON "THE ETERNAL CITY."

At the evening service of the Daytona Beach Methodist church, Sunday evening, more than 100 people came to hear Dr. N. W. Clark, of Rome, give his address on "The Eternal City." Accommodation was made for 50 of the people in the main sanctuary and wings of the church, and several scores of people who attended were forced to return to their homes because of lack of seats.

Dr. Clark conducted the services of the evening, and instead of preaching a sermon, gave an illustrated lecture on Rome, where he has lived for the past twenty years. The lecture was of great interest and many of the people were very beautiful. A good number of them were views of the interior of the Cathedral of St. Peter's, the Vatican and other famous buildings of Rome. Pictures of the great Catholic officials were also shown.

In closing the service of the last of the slides, Dr. Clark gave the benediction in musical tones as he has been accustomed to do for so many years of his residence in Italy, as a prominent member of the Methodist church.

Dr. Clark spoke in the morning on the subject, "The New Birth of Europe," and gave a good portion of his address to an outline of the direct

causes of the present great war. His view of the matter differed greatly from others which have been expressed before the Christian Forum, but were, however, very reasonable and were given in a pleasing and direct manner.

To hear Dr. Clark, who is truly one of the greatest of American Protestant workers in Europe, has been a great privilege to the people of the peninsula; in fact, a greater privilege than many realized. People came Sunday night from Daytona by the dozens to hear the lecture, and those who did not hear Dr. Clark may well hope that he will speak here again before his departure.

NEW RESIDENTS OF NORTH HALIFAX AVENUE ARRIVE  
Mr. and Mrs. I. L. Grinnell, from Detroit, Mich., with their two daughters, Miss Hazel and Miss Gladys, arrived Friday last after driving from Jacksonville in their auto. They will spend the winter months comfortably located in their winter home on the river front and North Halifax avenue, which they bought last spring from Mrs. Sarah H. McConnell. Mr. Grinnell is a prominent manufacturer of Detroit. The entire family is much pleased with the winter home and expect to spend each winter season here in the future.

The many friends of Mrs. Rebecca Blackman, mother of Mrs. C. A. Randall, will be grieved to hear that she is very ill with pneumonia at the Randall home on Ocean avenue.

Mrs. L. L. Evernden is now spending a few days at her home on Oak Ridge boulevard, Seabreeze. Mrs. Evernden has been visiting at the home of her son in Okeechobee for the past few months.

D. S. Mauck, the well-known clerk of the Beach grocery, is now well enough to be out of doors after several weeks severe illness at his home in the Chautauqua apartment on the corner of Duke street and Grandview avenue.

Among the winter visitors to the beach are Wm. Fraedrich and Gust Oehlke and their families from Sheldon, N. D. Both gentlemen are of that rapidly increasing class of tourists who spend their summers upon 4,000- or 5,000-acre wheat farms in the northwest and are just discovering the delights of Florida winters.

FRANCES THOMPSON DIES  
IN LOS ANGELES, CALIFORNIA

Many residents and winter visitors will learn with sorrow of the untimely death of Miss Frances Thompson, at Los Angeles, Cal., on Friday last. Miss Thompson was the only child of Hon. Jno. G. Thompson, late assistant United States attorney general, and granddaughter of Mr. and Mrs. John Milligan of Ormond. Until two years ago she had spent the winters with relatives and friends in the Halifax river towns, and was beloved by every person who knew her. The funeral will be held at Danville, Ill., on Tuesday.

## MASQUERADE BALL AT THE CASINO IS WELL ATTEND

The masquerade ball at the Casino Burgoyne on Saturday evening, the closing climax to Civic Day given by the committee of the civic department of the Palmto club, was largely attended by people of Daytona. Daytona Beach and Seabreeze.

The auditorium was prettily decorated with greenery and American flags. Promptly at 9 o'clock a grand march was turned, lead by J. B. Hinsky, dressed as a gentleman of Colonial days, and Mrs. Celeste Hinks, as the "troubled lady," followed by those in costume. After the grand march dancing was enjoyed until midnight under the direction of A. F. Hutchinson as floor director.

Among those in costume were Mrs. H. C. Crippen, as the sunbonnet girl; Adelaide Young, gypsy queen; Lee Dowers, gypsy; Lucile Johnson, Indian girl; Edith Hoffman, shepherdess; Mrs. Hoffman, Spanish lady; Grace Hoffman, Dutch girl; Elsie Coates and Mrs. Clark, butterflies; Robert Crippen, cavalier; Jean Frances Conrad, Turkish girl.

The proceeds of the evening were donated to the orchestra fund of the Casino Burgoyne.

## DESPLAND INITIAL HOP HELD SATURDAY EVENING

Saturday evening marked the first dance of the season at the Despland hotel, which was well attended by the hotel guests and friends who came in for the festivities. The Despland hotel orchestra in charge of Director Thornton furnished a delightful program and dancing was enjoyed until the eleventh hour. During the evening delicious and refreshing fruit punch was served.

The Saturday night hops at this hotel have always been a source of joy to the guests, and the initial dance was only a fair criterion of what the hops that are to follow will be.

Many dinner parties were given preceding the dance, and the usual fine dinner, of the hotel's reputation, was served.

### True to Training.

Little Fred, on being taught when he didn't want anything or didn't want to do something, to say, "No, thank you," was visited one day by his uncle, who was a great lover of children. He was teasing little Fred and upon his leave asked him to kiss him. Little Fred turned his head and gave this reply: "No, thank you."

### Breeding Powers of Oysters.

The breeding powers of oysters are simply amazing, and it has been computed that 1,000 full-grown parents produce 440,000,000 embryos in the course of a year. But of these it is estimated that only 421 individuals reach maturity, for the mortality is enormous, millions being washed away and devoured by hungry fishes.

## HISTORICAL PICTURE WAS WELL RECEIVED

"Old Deerfield 1675-1704," the historic, and fine picture presented by Col. H. S. Streeter at the New Daytona theatre on Saturday last, was without doubt one of the best arranged and truly realistic and historical pictures ever been presented here, and was well received at both performances.

Col. Streeter is an able lecturer, delightfully familiar with his subject and carries the audience through the avenues of history which are fast being forgotten. It is a picture of wide educational value, uplifting and recommended by woman's clubs everywhere, as well as by the clergy, by press and public. The scenes were taken from Sheldon's volumes by the lecturer, himself, in the old historic valley of Deerfield, Massachusetts, and the pictures were made by the Edison company.

### Hint for Bachelors.

"Since I have given my best thought to the problem I have not found it especially difficult to take care of my sister-in-law's two-year-old baby while she goes shopping," said the bachelor brother-in-law. "For a time, until I mastered the subject, I must confess that it had me considerably befuddled. But now I merely put the dear little fellow under a tub, weighted down so that by no possibility can he overset it, and then go out to the barn and read and smoke in peace."—Judge.

### Perfectly Cut Diamond.

A properly cut diamond has 58 facets, including the table and culet; the 32 facets above the girdle should be 40 per cent of the girdle and the angle from the girdle to the table should be 35 degrees and from the girdle to the culet 40 degrees. A perpendicular line drawn from the center of the table to the center of the culet will be one-third above the girdle and two-thirds below.

## Unusual Values in Silverwear

Beautiful silverware is not a luxury or an extravagance. When here, its first cost is distributed over so many years by its long life, the cost per year becomes insignificant.

And the original cost is brought to an unusually low figure at store. That is a matter of wise selection on our part, made in interest. We have searched the markets for silverware worthy of patronage, and of our store, to be sold at prices which do not make an inspection of our present offerings will interest you, whether you are ready to make purchases at once, or wish to defer it.

## ORMOND EMPLOYEES HOLD BENEFIT WHIST

HOTEL ORMOND, Jan. 20. — The employees of the Ormond Hotel held a progressive whist party in the Casino which was very well attended and a most enjoyable affair. The proceeds of which which are to be devoted to "The Benefit Sick Fund for Employees of the Ormond Hotel," and quite a goodly sum was realized. There were prizes which were won by the following: Ladies' first prize was captured by Mrs. L. A. Hinch, second by Florence Erda; consolation prize by Hazel Knowlton. The gentlemen's first prize was won by Samuel Sullivan; second by Thomas Bridgman; consolation, David Linehan. This is the beginning of a series of whist parties which are held annually for the above-mentioned benefit, and the next will be held January 30th.

Afternoon Tea is being served daily in the Ormond Hotel lobby in front of the glowing fire, which, though the weather has been unusually pleasant and the fire not needed, adds a touch of home comfort to the scene.

Again quite a number of friends waited expectantly for the arrival of the five o'clock train from the north in order to greet Daniel C. Tyler and daughter, Miss E. H. Tyler, of Lexington, Mass., who arrived last night, and were accorded a warm welcome by their many friends and D. J. Trudeau. They are regular valued patrons of the Ormond and Bretton Woods.

James L. Hamill, of Columbus, O., and S. McC. Hamill, of Philadelphia, Pa., guests for several seasons past of the Ormond, who have arrived for a stay of several weeks, were also accorded a warm welcome. They said to the interest of the golfers, being good players, and are to be seen daily on the Ormond Beach Golf Links.

Chas. E. Crocker, of Tarrytown, N. Y., is registered at the Ormond.

There is a rumor that Dr. and Mrs. Harwood Houghton, of the "Case-ments cottage," Ormond Beach, have rented it for the balance of the season, and that they will move in consequence to their other cottage further down the road.

The beach has been in excellent condition for riding this week, and day and night the merry honk of the passing automobiles announces that it is abroad in the land.

## MANY MOTORISTS ARE AT THE CLARENDON

More automobiles have been brought to Florida this year by guests of the Hotel Clarendon than ever before. Every day adds its quota to the motor colony of this popular Seabreeze winter resort and as a consequence tourists are becoming to know Florida better. They make daily trips through the surrounding country, enjoying the balmy breezes and beauties of nature that clothe this fair land in a radiance which is cheerful, healthful and soul inspiring. The palms, the orange groves, the southern grey moss overhanging the driveways and the floral tribute of every home, stand out in such bold contrast to the ice and snow of colder climes that the impression is most lasting, and Florida is ever dear to the minds and hearts of tourists who favor the state with a visit. Automobiles have awakened the people of the state to the necessity of better roads and millions of dollars are being spent to improve the highways so that the tourist with his car may traverse the state from one end to the other. Many persons who are due to arrive at the Clarendon early in February have written that they will bring their autos. In fact the travel south over the Dixie highway means that Florida is the mecca of thousands who want to become intimately acquainted with the land through which they travel. The automobile club of Chicago has answered over fifty thousand letters from motorists who hope to come south this winter. The automobile club of Detroit reports that their secretary is swamped with inquiries, while the Automobile Blue Book has received over 500,000 similar communications. Thus, it seems, that Florida is in the spotlight, thrown from the headlights of thousands of Americans who motor for pleasure and are ever driving to reach the land of sunshine and of flowers. They are coming each day and each hour, glad that they have left behind wintry blasts and the slush occasioned by ice and snow. When they have once seen Florida and its verdure they will come again where the sea breezes blow and where they feel that a hearty clasp of good fellowship awaits them.

Mr. and Mrs. George Mesker, of Evansville, Ind., arrived at the Hotel Clarendon Saturday, having made the trip south by automobile. Indiana boasts of many fine roads and ranks second to Michigan in the production of motor cars. In speaking of his trip Mr. Mesker said: "If I had as much trouble marching through Georgia as we did driving through Georgia, no wonder he compared war to the nether regions. North of Jacksonville in Georgia the roads are practically impassable, but when we reached Florida we felt at home as the highways are good. Florida should use strong pressure to induce Georgia to do something to improve their roads."

Mrs. Alfred Stuart, Jean Stuart and David Stuart, of Youngstown, Ohio, are comfortably situated at the Hotel Clarendon.

Mrs. J. J. Carter and Hugh Carter, accompanied by a maid and chauffeur, arrived at the Hotel Clarendon Saturday. They have their car with them and the first act after being assigned to their suite was to test out the beach drive.

Robert W. Kirk, of Findley, Ohio, is with the Clarendon for the winter.

Mr. and Mrs. Geo. E. Keeney, of Connecticut, are again with the Hotel Clarendon for the season. They love to be near the ocean and are delighted with the beach drive.

Mr. and Mrs. Chas. Wallser, of Detroit, are with the Clarendon, having arrived Saturday.  
Mrs. W. B. Comstock, Miss Comstock and Wm. A. Comstock, of Alpena, Mich., are delighted with the Florida sunshine which greeted them when they reached Daytona Saturday. They went at once to the Hotel Clarendon and will remain for several weeks.

### WILBUR BY THE SEA

WILBUR-BY-THE-SEA, Jan. 20.—A very interesting bridge party was given Friday night at the Toronita hotel. Miss Marjorie Brown and Miss Mary Fellows were awarded the ladies' prizes, and C. A. Hurd and R. G. Craighead won the gentlemen's prizes. Miss Piper delightfully entertained the guests and their friends at the camp at Spruce creek. A delicious basket lunch was prepared by the Toronita's chef, and a most enjoyable day was spent. Mr. Wilbur has kindly consented to open these grand picnic grounds to the guests at all times, and to make improvements to add to their pleasure. This jungle trip is considered one of the grandest trips to be had in Florida, and the trail is bordered with pretty flowers and beautiful and rare birds are there in great numbers.

Hon. Frank B. Walker, of Spokane, Wash., will arrive at Wilbur-by-the-Sea within the next few days. Mr. Walker is a retired banker, and writes he has heard so many complimentary reports on this new city that he is anxious to join his contented group of friends.

The many friends of Mrs. J. H. Carr the president of the W. I. S. H., will be pleased to read that she is fast improving. Mrs. Carr is a prominent club woman, with great literary ability, and her absence from the social circles is a great loss to her friends. Another Sunday night concert will be given Sunday evening at the Toronita hotel, and Miss Piper, with her usual painstaking efforts, has arranged a delightful program, and music lovers are assured of a rare treat.

C. A. Hurd, who is to be leading man in the play soon to be given here, is a valuable assistant to Miss Fellows. Mr. Hurd is very fond of Shakespeare

and at one time staged a successful play in the Colonial opera house.

### ALARMED BY RAIDER WILL WINTER HERE

Mr. and Mrs. C. D. Wilson, of New York, are guests of the Prince George for the season. Mr. Wilson is an experienced hotel man with extensive interests in western Canada. He had made winter bookings for the West Indies, but became alarmed at the activities of the German raider and decided to remain in the good old U. S. A. This is his first stop in Florida, but he is immensely pleased with the state and Daytona. As a hotel man he is agreeably surprised with the hotel facilities of the state and feels that he was fortunate in securing the Prince George as a winter home.

PRESIDENT ADDRESSES  
SENATE IN PERSON ON  
PEACE MOVEMENT

(Continued from Page One.)  
tween the United States and other nations would be taken up.  
No president since Washington has made a similar appearance before the senate.  
Senator Stone told the Senate this morning that the president proposed to elaborate on the subjects contained in the recent peace note. This announcement was made by Senator Stone to quiet reports regarding the purpose of the president's address.  
Senators in touch with the foreign situation are given to understand the president felt that the time had come when the Senate, which makes treaties, should be informed of the status of the peace league movements.  
Some officials expressed the opinion that they thought that Great Britain's acceptance of the idea, expressed in the supplemental note from Foreign Minister Balfour, advanced the situation to a point where the president decided to address the Senate. It is pointed out that Balfour accepted the idea in principal for Great Britain and her allies. Germany and her allies have also accepted.

WINTER VISITOR DIES  
AT A LOCAL HOSPITAL

Mrs. Mary A. Roemer, wife of Herman Roemer, of Milwaukee, Wis., died at a local hospital at about 2:00 o'clock this morning. The remains were prepared for burial at the Bingham & Maley company undertaking parlors and will be forwarded this afternoon to Wheeling, W. Va., for interment. Mr. Roemer will accompany the remains to Wheeling. Mr. and Mrs. Roemer came to Daytona a few weeks ago, hoping that Mrs. Roemer, who was in ill health, might be benefited by the change and milder climate. The deceased was 73 years of age.

Raymond E. Williams, photographer of Sanquillo, N. Y., has just completed a modern and up-to-date studio at 79 1/2 Third avenue. The interior is very pleasingly decorated in tan and green, paneled in mahogany with colonades and heavy drapes separating reception room from the studio proper. The studio is equipped with special lighting to properly facilitate the controlling of light at all times. The finishing room is also equipped with electricity and the latest appliances which insure perfect results.

Miss Mae Croble came to Daytona Saturday for a visit with Mrs. L. C. Banks at her home, "Laurel Grove," at Holly Hill.

ROAD CONDITIONS  
CRITICISED BY THE  
OWNERS OF ORTONA

E. A. Simpson, of Simpson & Pope, owners of Ortona, expressed himself very plainly to a News reporter yesterday.  
"If ever a firm was imposed upon, we certainly have been," said Mr. Simpson. "Ever since Mr. Pope arrived here November 1, we have been obliged to cart lumber, hardware, cement and all materials used in building of our bungalows and cottages to say nothing of hay, grain and innumerable trips necessary in a healthy development of this kind, over sand, through ditches and finally over shell dumped on a roadbed like the waves of the ocean, and so narrow that nine feet in width would look like the beach in comparison, and compelled to traverse this until we complained and then got called soreheads. These have been the conditions under which we have labored nearly three months, our teams drawing about one-half a load at a time from Daytona. Figure it up for yourself and see what it means in cash to us, not to mention the extra time consumed in sending other mule teams to assist even then as no help is offered enroute nor any detour prepared. Right now from our property, which is located just north of the Clarendon golf links, to Ormond there are places where automobiles get stalled every day, and as for the nights--say, it is a rare thing not to be routed out of bed by some poor unfortunate who has begun to see visions of China, if not hauled out soon. Fine business this, and profitable advertising for the City Beautiful and Ormond by tourists coming to enjoy Florida and incidentally leave a few hundred to keep up its present growth! Next year they will go to the hot place rather than experience another night like the one they tell you about. In other words, they are thoroughly disgusted with this part of the Florida East Coast, and I ask you, can you blame them? And when are these conditions to end?" asked Mr. Simpson. "No doubt about April 1, if the Lord is willing and all the winter visitors are gone at that time," he said. "Right now I want to say that the firm of Simpson & Pope is not criticizing conditions without trying to help. We have granted the use of our wharf for unloading shell, rented our barges and in every way tried to aid the contractors until we have wanted our property for our own use, and it seemed useless to even suggest anything more. If there is anything that can be done to better condition of Halifax avenue," said Mr. Simpson, "you can count on Simpson & Pope to boost."

THINKS CONCERTS IN  
CASINO SHOULD BE  
BETTER ATTENDED

A visitor from Ohio has the following to say concerning the concerts in Casino Burgoyne:  
"Editor Daily News:  
"Since I have been in your beautiful city and attending the nightly concerts of your well balanced orchestra that discourses such beautiful selections of classical and popular music, I don't understand why more of your own city folks, as well as tourists, don't take more interest in these concerts, especially in the evening. Why, the opportunity that is offered to spend such delightful hours in the casino is well worth anyone's time to hear that kind of music. Not only as an entertainment should it be an inducement, but also to encourage the orchestra, who are untiring and liberal. It is to be regretted that there are only a few who come to hear these concerts and then mostly just for part of the time.  
"A musical or popular concert don't seem to get the support it deserves. The hours these musicians spend in rehearsing and producing these selections are worth a great many dollars and the community don't seem to appreciate it because it is free. If they lived in cities and had to pay a dollar or two for the same entertainment, they would object because it is too expensive. Now the opportunity is here, the time is well spent, and every one should come and stay the short time it takes to hear really and truly good music, and I am certain it will please the orchestra to know the effort they put forth to produce the best music possible is appreciated.  
"A little suggestion: Possibly to stimulate the attendance, it would be a good idea to publish the program daily in advance in your valuable paper."

Hal Whitfield, teller of the First Bank of Hendersonville, N. C., who is enjoying a vacation visit with friends in New Smyrna, came up from that city Saturday in company with Mr. and Mrs. J. H. Hart and Mrs. Howe, of Hendersonville, and Miss Skipper, of New Smyrna, and visited Mr. and Mrs. J. R. Hill and daughter, Miss Hill, of Hendersonville, at their winter home on San Juan avenue. Mr. Whitfield, who was seeing Daytona for the first time, was greatly pleased with the city.

Miss Agnes H. Floyd, of Jacksonville, came to Daytona Sunday evening, having accepted a position with the Gazette-News company, in the reportorial department of its several publications, but more especially the Morning Hotel News. Miss Floyd, who was last season associated with the Miami Herald, is a cousin of Wm. K. Perkins of this city and will make her home with Mr. and Mrs. Perkins at 24 Myrtle avenue.
